

THE Q!OZ

Quantar Magic, 'Community Currency'!

The authentic, trading heart of every nation, involves the 'commons', the economic networks, between families, friends, students, and community marketplaces, as we fulfil our needs, for goods and services. Australian Quantar, with its alternative, digital currency, TheQ!, has been designed to assist these trades, between individuals, and businesses. TheQ! marketplace, operates through Cyclos banking software, and the Quantar Ap, on computers, phones, and tablets, with each Quantar, for trading purposes, valued, at one Australian dollar.

Quantar now seeks, 300 people, willing to participate, in a free trial. Each trial member, receives 500 Quantars, known as 500Q, to 'seed' their accounts, ready for Quantar trades. Potential trial members, can email Quantar, with their chosen login name, and password. Quantar will contact, when the accounts, are operational.

Once the trial has been completed, Quantar Australia, will fully open, with \$AUD16 annual memberships, 'seeded' with 500Q. A further 500Q, will also be transferred, into the individual accounts, every time the annual memberships, are renewed. When trial members register, their final account balances, will be added to their new, 500Q accounts. Additional applicants, exceeding the initial 300 trial members, will also be contacted, when Quantar, goes fully 'live'.

Key points, within the Quantar concept, can be found on the Quantar flyer,
available from the website, as a PDF file, for sharing, or printing.
Free flyers, postage-paid, can also be ordered, in multiple numbers,
allowing the flyers to be shared, within our local networks!
